The 4 pillars of absence.io

Vacation management, time tracking, digital personnel files, and expense management - all in one solution. absence.io puts an end to complicated HR processes.

Absence Management

Reliable vacation planner for your employees with a simple request process, overview of their remaining vacation days & custom leave types.

Time tracking

Keep track of work hours and overtime with our digital time tracking, web and mobile. Create reports & manage individual start and end times.

| | ථ |

| | |
| | |

Digital personnel file

Manage all employee information in one place with a simple document upload function and a smart questionnaire.

Expense Management

Simple and secure submission, approval, and reimbursement of expenses and travel costs.

Trustpilot

Administration and backoffice

- Wide range of individual setting options
- Labels for absences (& time tracking entries) for project tracking
- Reporting & export functions for absences, e.g. accruals. Depending on the modules subscribed to, further reporting options will be available
- Division of company structures by departments & teams
- Administration of roles & rights
- Setup of company vacations & days off
- Dashboard with all important information at a glance
